

Sean McEvoy

Director—Project Services

Profile

Sean has worked for over 20 years at a management level in the construction industry within the Mining, Oil & Gas, Marine Infrastructure and Civil sectors. He has developed a thorough understanding of all aspects of project management, stakeholder management and cost control throughout each phase of a project's life cycle.

Sean's experience extends to both Contractor and Client-side project management, having worked in the following key roles:

- Operations Manager
- Deputy Project Director
- Senior Estimator
- Bid Manager
- Project Manager
- Quality Assurance Manager
- Quantity Surveyor

Through these roles, Sean gained the following invaluable experience:

- Project management, particularly on large scale infrastructure and marine projects
- First principle construction cost estimation and budgeting
- Engineering design management
- Contract negotiation
- Contract administration, claim management and dispute resolution
- Project cost control and reporting
- Project planning
- Programme management
